St. Vincent de Paul Thrift Shop DONATION DROP-OFF

This past Monday we had a thunder storm. A well appreciated rain. But, on Mondays, we are closed. People who were so kind as to drop off the items of furniture, clothing, bedding, etc., got drenched. When we came in on Tuesday, we had to throw half of the items away. Please, can you drop off at regular hours when we are open. The hours are: **Tuesday – Saturday, 10 AM – 3 PM.** Without your donations we would not be able to help others and we really appreciate them. But, when we have to throw them away or take them to the dump, it is such a waste and a lot of hard work disposing of them. Please help us out. Thank You.

Why Go To Church?

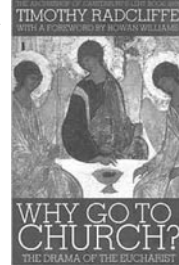

The Drama of the Eucharist
Timothy Radcliffe op
Religion

One Sunday a mother shook her son awake, telling him it was time to go to church. No effect. Ten minutes later she was back: "Get out of bed immediately and go to church." "Mother, I don't want to. It's so boring! Why should I bother?" "For two reasons: You know you *must* go to church on a Sunday, and secondly, you are the bishop of the diocese." It is not only bishops who sometimes feel no desire to go to church. Surveys show that a high percentage of people in the West believe in God but attendance at Sunday services is plummeting.

Some believe religion is a private affair between themselves and God and what happens on Sundays in church is irrelevant. So why Go?

Fr. Radcliffe answers this question by asking: "Why go to the Eucharist? We do go to church for all sorts of other services, for baptism, weddings and funerals. The Eucharist has as its focus the reason why we go at all."

Timothy Radcliffe was until recently Master General of the Dominican Order. He is the winner of the 2007 Michael Ramsey prize for theological writing for his book, *What is the Point of Being a Christian?* He lives in Oxford.

Yet another example of the ongoing flood of success stories with non-embryonic stem cells is that of three year old Alyssa Dupuis who suffered brain damage at birth that caused cerebral palsy. Her parents decided to bank her umbilical cord blood which was recently given to Alyssa via stem cell transfusion. Immediate positive results were seen and at last report this little girl, according to her mother, is "about 85% cured from cerebral palsy."
